## EXPERIENCE

**Codec** — **4/2025 - Present**

- **Front End:**

- Participated in several e-commerce web projects.
- Skilled in building web applications with ReactJS and Next.js.
- Implemented and consumed RESTful APIs using Axios and TanStack Query for efficient data fetching and state management.
- UI libraries such as Ant Design (Antd) to create responsive and user-friendly interfaces.

**FPT Software Academy** — **9/2023- 12/2023**

- **Front End:**

- Trained in building user-friendly and responsive websites using HTML, CSS, and ReactJS, with experience gained during a Front End Developer internship.

## PROJECT

**E-commerce : CODEC** — **6/2025- 9/2025**

- **Description :** Built “Codec” – an online sales platform that enables effortless store creation, product and order management, and a smooth shopping experience with integrated VNPAY payment and flash sale features.
- **Main function :** Main Functions: Store creation, product/order management, flash sale, VNPAY payment, debounce search, image search, skeleton loading, and responsive UI.

- **Tech stack :**
  - Frontend : ReactJS, Tailwind CSS, TypeScript.
  - Antd, Axios, React Toastify, TanStack Query, Zustand, Lodash.

**Review Food** **9/2025- 10/2025**

- **Description :** Developed the Review Food website using Next.js and Tailwind CSS, focusing on creating a modern, responsive, and SEO-optimized interface. Implemented dynamic routing, reusable UI components, and performance optimizations to deliver a smooth and elegant user experience across all devices.
- **Tech stack :**
  - Frontend: NextJS, TypeScript, Tailwind.
- **Deploy :** https://my-protfolio-nine-mu.vercel.app/
- **Github :** https://github.com/Thanh-Nguyen-2002/review_food

**Capstone Project** **9/2024- 12/2024**

- **Description :** A web-based HR management system with core features including employee information management, work schedule management, leave request processing, attendance tracking, product management, and payroll..
- **Tech stack :**
  - Frontend: ReactJS ( Vite ), Axios, React Toastify, Ant Design.
- **Github :** https://github.com/Thanh-Nguyen-2002/G5_XuongMay

**Protfolio** **10/2025- 10/2025**

- **Description :** Developed the Protfolio website using Next.js and Tailwind CSS, focusing on creating a modern, responsive, and SEO-optimized interface. Implemented dynamic routing, reusable UI components, and performance optimizations to deliver a smooth and elegant user experience across all devices.
- **Tech stack :**
  - Frontend: NextJS, TypeScript, Tailwind.
- **Deploy :** https://my-protfolio-nine-mu.vercel.app/
- **Github :** https://github.com/Thanh-Nguyen-2002/my_protfolio
